

**FAST FOOD SET  
Keystroke Sheet**

59-40150

Below each illustration is the name of the logo and the keystroke(s) you must type to engrave the logo.

Burger King

A

Chuck E. Cheeze

ABC

Roy Rogers

A

McDonald's\*

ABCDEFGH

Pizza Hut

A

Some tips when engraving the McDonald's logo:

- o this is a two line logo; the first line engraves the logo, the second line engraves the registration mark.
- o the keystrokes for each line must be as follows:
  - Line 1    ABCDEFG    (Engraves the Logo)
  - Line 2    H            (Engraves the Registration Mark)
- o use identical baseline, character height, justification and margins for both lines
- o we suggest using 2 different cutter sizes; the smaller of the two for the second line or registration mark.
- o to do this: engrave the logo, then use the "pause" switch to stop engraving, change the cutter, release "pause" and continue engraving.
