Seal Oval

A

Ornate\*

ABC

Inside Circle

A

To set up a border:

- o count each border as 1 line of text
- o the character height measurement determines how tall the border will be
- o the baseline measurement determines where the bottom of the border will fall on the plate
- o italicizing and condensing distort the border

\*Some tips when using the Ornate Border:

- o suggested cutter size is .040
- o to engrave a rectangular border, engrave it sideways, or if you want to expand or stretch this border, increase the percent of standard width.
